RELEVANT EXPERIENCE

The Relish, San Francisco — *Intern*

APRIL 2019 - MAY 2019

- ➤ Refactored React and Redux for performance and coherence. Increased speed of the view by 90%.
- ➤ Built CMS for categorization to enable content specialists to update content previously hard coded by engineers, reducing turnaround time for category updates down from several hours to a minute. Demo.
- ➤ Added jest test suites to increase coverage of the existing code base.

Alto Pharmacy, San Francisco — *Patient Care Specialist*

OCTOBER 2017 - JANUARY 2019

- ➤ Provided summary of all care to individual physicians (teams of 5+) on a per patient basis to ensure the highest quality care and decision making and compatibility with the patient's insurance.
- ➤ Engineered solutions to maximize insurance coverage for patients.
- ➤ Completed a blog project to highlight diversity within Alto. Published regular blogs featuring various members of our community.

PROJECTS

Warbler — *a twitter clone*

Built with Python, Flask, and PostgreSQL. Available here. Github.

MicroBlog — *a fullstack app based off wordpress*

Built with Redux, React.js, and PostgreSQL. Github.

Flower Puzzle — *a spin on the classic "Light's Out"*

Built with React.js. Guaranteed winnable. Available here. Github.

EDUCATION

Rithm School, San Francisco — *Full Stack Web Dev.*

JANUARY 2019 - MAY 2019

Cohort 10 | 16 week, full-time Web Development bootcamp

Rice University, Houston — *B.A. Sports Medicine*

AUGUST 2013 - MAY 2017

Duncan College | O'Week Diversity Coordinator | Teaching Assistant
