RELEVANT EXPERIENCE

The Relish, San Francisco — *Intern*

APRIL 2019 - MAY 2019

➢ Refactored React and Redux for performance and coherence. Increased speed of 5 views each by 91%.
➢ Built CMS for categorization to enable content specialists to update content previously hard coded by engineers, reducing turnaround time for category updates down from several hours to a minute. Demo.
➢ Added jest test suites to increase coverage of the existing code base.

Alto Pharmacy, San Francisco — *Patient Care Specialist*

OCTOBER 2017 - JANUARY 2019

➢ Kept detailed documentation of patient cases and created carerr reports of critical information about patient conditions, medications, and treatments for physicians to improve quality of care to their patients.
➢ Engineered solutions to maximize insurance coverage for patients.
➢ Designed & implemented a company blog to highlight diversity within the office as a result of the exponential growth the Alto experienced in the last 2 quarters.

PROJECTS

Jobly — *a fullstack app based off LinkedIn*

Built with Redux.js, React.js, Express, and PostgreSQL. Available here. Github.

MicroBlog — *a fullstack app based off Wordpress*

Built with Redux.js, React.js, and PostgreSQL. Github.
